Dear Human Resource employee

I am writing this letter for the purpose of fulfilling the requirements that are set in the website.

As you have read in my CV, I have had experiences in creating websites or programs that help cater to the needs, During the development of the programs, I work closely with my client to ensure that their needs are met.

Through the years i have stayed in De La Salle University - Manila, I have been taking a Bachelor's Degree in Information Systems, This has taught me to analyze company processes and make suggestions to simplify the process, In other words, I can make your jobs easier for you.

Thank you for taking the time to consider this application and I look forward to hearing from you in the near future.

Yours sincerely
